"BLACK GANG" HELD TO BLAME

London, April 20.-News received here from St. Petersburg indicates that a be-

were two conflicting currents of policy aspiring to ascendancy, each placing its hopes on one of the empresses. The group which swore to maintain the policy of Alexander III assumed the name of "The Union of Alexander III." The inner counell included the Grand Duke Sergius, M. Phehve, M. Pobledonostseff, and Count Ignatieff, while the affairs of the union vere conducted in the name of the couninion was unable to enter upon active operations before the assassination of M. Sipiaguin opened to M. Plehve the post of minister of the interior, which caused the then minister of finance.

He saw no reason, bowever, to discourage people from height. however, to discourage people from being vaccinated; it would do them no harm. The scare was really originated by a morn-Ing newspaper one day when news was short for the sensation column. It spread by the sensation column is spread by the sense of the sen rapidly, and presently everybody was vaccinated, from the President of the republic downward. The public services came to a temporary standstill while the employes were under the lancet, and even business halted in its stride.

In the meantime, the British admiralty is in reality so satisfied with the Dreadnoght type that battle ships of a similar class but of still greater dimensions will be laid down. Several telegrams from St. Malo give details of a scandal which has been pro voked by the discovery that adulterated chemicals and medicines have been sup plied to the French fleet which sails from St. Malo every year for the cod fisherie off Newfoundland and Labrador. One hun dred and seven boats were to sail las week, and for several days the commit tees of inspection appointed by the French admiralty had been inspecting their stores. When the time came to examine the medicine chests, which all boats ar compelled to carry, hardly a medicamen answered the test to which it was put. The alcohol and camphorated oils were far from being of the standard demanded, "Iodoform" was a yellow powder having anything but the qualities demanded o it. In 35 cases out of 107 the med-icine chests were absolutely useless. The official committee of inspection has given the information against the chemist of St. Malo who supplied the medicaments, and it has been decided to prosecute him. The chemist is very well known in the town, and was so trusted that for many years the committee scarcely troubled to examine the supplies he provided. Some many of their relatives died because of adulterated medicines supplied during the last ten years.
